Very difficult?

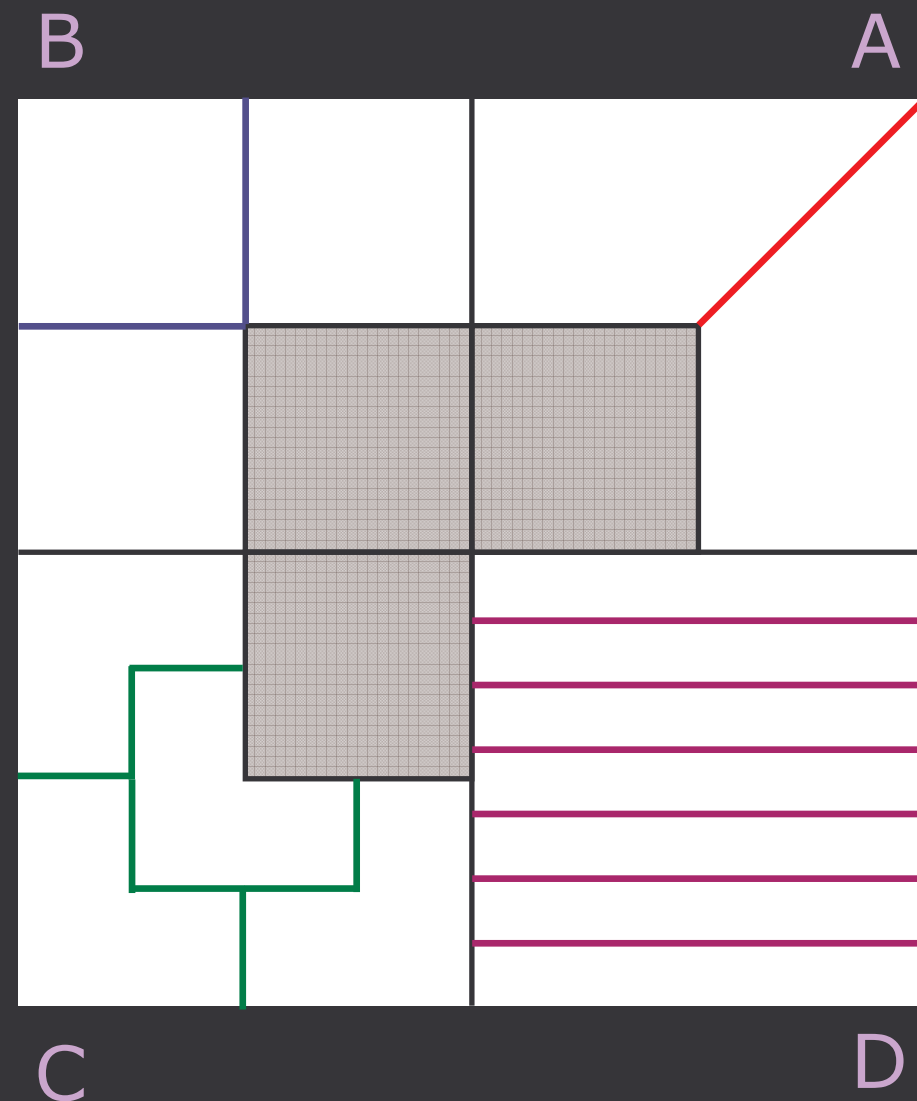

That's right!

4 Square Questions

Be ready!
Here comes
the last
question!

4 Square Questions

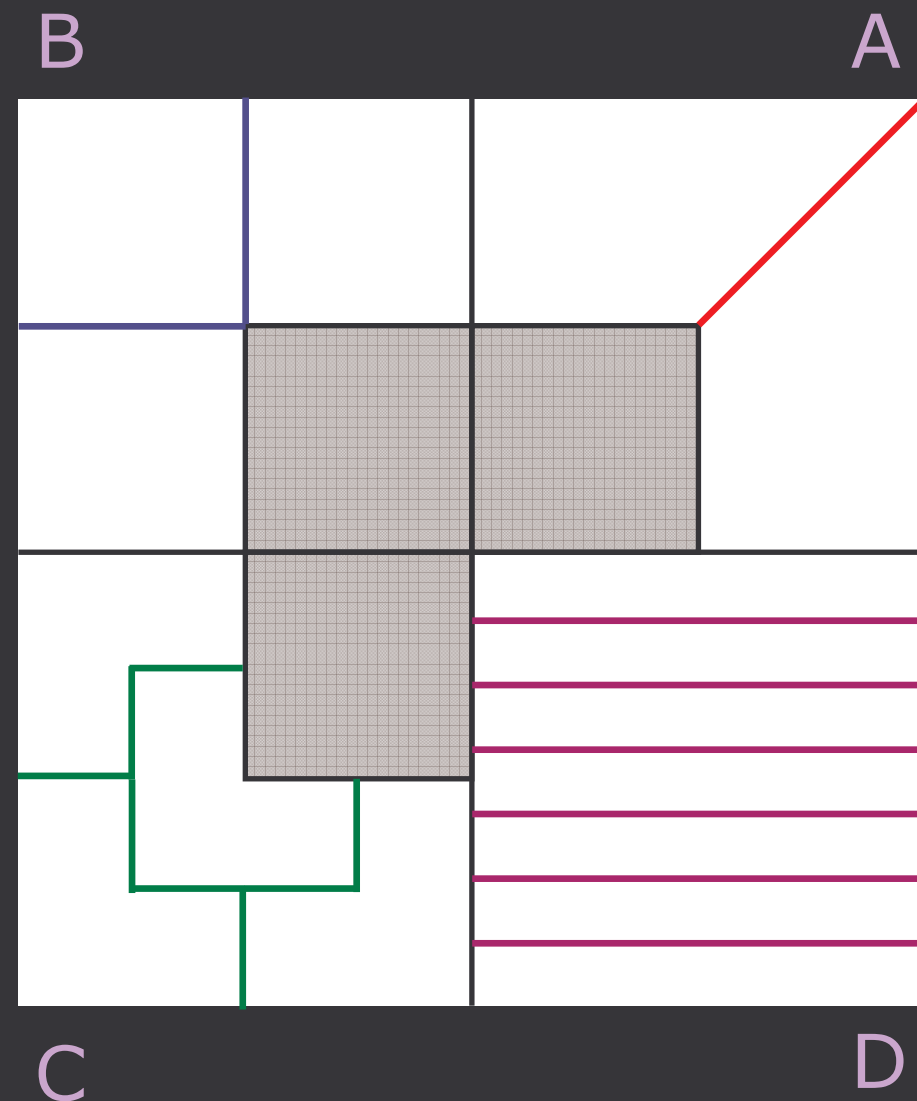

Q 4

Divide the white area in square **D** into seven equal pieces.

Was it really that tough?

4 Square Questions

Q 4

Divide the white area in square **D** into seven equal pieces.

If you didn't get the answer, it was just that your mind was conditioned to seek a complex solution!

4 Square Questions

Lessons learnt:

- Most of the times, our mind gets conditioned so much by the circumstances that we can not see the obvious.
- When we go to a specialist doctor with a simple headache, diagnosis starts from migraine, upwards!
- We assume that things are so complicated and we get entrapped in the ghost of it's thoughts.
- We carry on the same syndrome to our relationships and make them complicated.

BE SIMPLE IN LIFE !

THE GREATNESS OF THIS MAN WAS HIS SIMPLICITY!

HAVE A NICE DAY!
